Database:	Microsoft SQL Server (2005, 2008, 2012, 2014), MySQL, MariaDB, etc.
Platforms:	Microsoft Windows
Others:	Adobe Photoshop, Adobe Flash, Paint.

#### Other Technologies

- Developing T-SQL queries, stored procedures, Views and triggers using SQL Server (2008, 2012, 2014)
- LINQ, LINQ to SQL, LINQ to XML, Entity Framework 4.0,6.0.
- Google visualization Charts, Windows services, Web Service.
- Code first approach in MVC, NoSQL Database (Mongodb, Redis), MEAN Stack.

### FUNCTIONAL

- Designing, developing, testing and debugging, troubleshooting of the application.
- Cooperating and communicating with other team members for efficient management work.
- Managing and providing technical support to project team as well as clients.
- Delivering and implementing the project as per scheduled milestones.
- Manage requirement gathering, system analysis of technical and functional specifications.

### ONSITE PROJECT DEVELOPMENT

- I have been to **United Kingdom** (UK) for onsite development for the project HLF.
- My role was to discuss and confirm requirements, product design, task breakdowns, task estimations, and getting it done through the team.
- I was managing India operations and liaising with both the India and UK teams to confirm the goals and achieve them and I was reporting to the product manager directly for the same.

- I wrote product requirement document, technical specification as well as software design specification.

## ORGANIZATIONAL SCAN

---

1. Since Nov'2015 CIVICA Resource Pvt Ltd., Vadodara as Senior Software Engineer.
2. June'2014 to Nov'2015 Hex Wireless Pvt Ltd., Vadodara as Senior Software Engineer.
3. Sep'2013 to June'2014 Orange Technolab Pvt. Ltd., Ahmedabad as Software Developer.
4. April'2012 to July'2013 Rigel Networks Pvt. Ltd., Vadodara as Jr. Software Developer.

## PROJECT OVERVIEW

---

### 1) Heritage Lottery Fund

- Tools
  - ✓ Front Tool: Microsoft C# .NET 3.5, JQuery, JavaScript.
  - ✓ Back Tool: Microsoft SQL Server.
- Description

HLF (Heritage Lottery Fund) is a UK government fund used to entertain individuals and organizations engaged in various heritage maintenance and restoration activities to preserve the ancient heritage. The project is co-managed by two companies. One side maintains the clients-end. Users are offered to fill in various forms of application to request funds. CIVICA maintains how and to whom is the fund awarded. The management part also includes to monitor the utilization of the funds as well as keep track of the utilization and award next round of funds.

### 2) iTextWeb (Domestic and International)

- Tools
  - ✓ Front Tool: Microsoft C# .NET 3.5, JQuery, JavaScript, Google visualization charts
  - ✓ Back Tool: Microsoft SQL Server 2012
  - ✓ Protocol: SMPP.
- Description

It is an application which can send SMS in bulk. It has multiple plug-in like Shortcode, Longcode, and SMS with strong background of windows services and SMPP Protocol for MT (Message Sending) and MO (Message Receiving). Apart from this the whole applications works on membership provider which handle role base authentication with access of control. (Both domestic and international are some except billing module)

### 3) Yakomail

- Tools
  - ✓ Front Tool: Microsoft C# .NET 3.5, MVC 4.0, JQuery, JavaScript, Google visualization charts
  - ✓ Back Tool: Microsoft SQL Server 2012
  - ✓ Protocol: SMTP
- Description

An application which is used to send emails in bulk. It also helps you create your email newsletters, email campaign, and track your campaign results. It has strong background of windows services and SMTP Protocol for sending email as well as track bounce and unsubscribed mail by recipient of email.

## Other Valuable projects

- **SMS Agent**
  - ✓ This is a Windows form application for sending messages in Bulk with use of REST API.
- **SMS Excel**
  - ✓ This is an Excel Add-In which is used to send SMS from excel sheet with use of REST API.

➤ **Web Installer**

- ✓ This is an application which is used to install web application and windows services into server with IIS configuration.
- ✓ It also executes the script to create Database into Microsoft SQL Server.

➤ **OneRing Reseller panel**

- ✓ OneRing reseller clone of OneRing.in application, it is an aggregator panel for resellers.

➤ **Orange Payroll & HRMS**

- ✓ Web payroll has been designed to reduce the time and afford that is normally associated with payroll processing and to provide a direct and seamless operation that enables the employer to handle all staff and payment processes in a simple and accurate manner.
- ✓ Allows organization to generate Pay slips and salary register based on attendance of employee.

➤ **JewelCloud.com**

- ✓ This application belongs to jewelry domain. This application used to manage Jewelers on user's sites.
- ✓ This is a kind of administrative panel.

➤ **OneRing.in**

- ✓ Reach your audience instantly through **Missed Call**.
- ✓ One Ring is a web-based platform that lets you organize lead generation Campaign, instant feedback, voting etc.
- ✓ One of the best application/project on which I have worked.

---

**ACADEMIC CREDENTIALS**

- **MCA. (Master of Computer Applications)** from CICA Changa, Gujarat University, in 2011 with first class (69.34%).
- **B.COM (Bachelor of commerce)** from Maharaja Sayajirao Gaekwad University, in 2008 with first class (62.25%).

---

**ACHIEVEMENT**

Won the certificate of 1st **Runner-Up** in the competition of "**Code Jam 2016**" organized by CIVICA Resource Pvt Ltd held in **April 2016**. In this competition, we need to develop an application using **open source technologies**. We have used **Node.js and MongoDB**.

---

**PERSONAL QUALITIES**

- Proven abilities to adapt new technologies, methodologies and trends.
- Quick study & welcoming new challenges.
- Updating knowledge regularly.
- Helpful to others.

---

**PERSONAL DOSSIER**
